imole

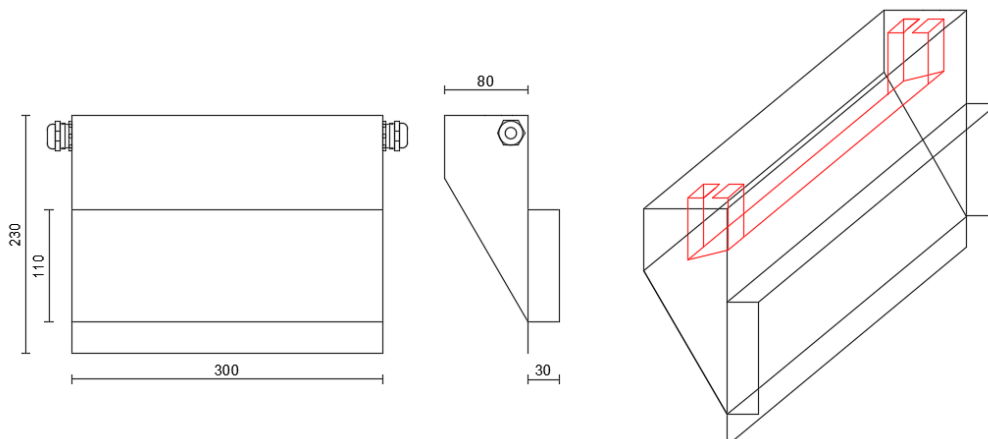

LUMINAIRE DESCRIPTION

Imole is a custom-made luminaire suitable for installation in cast concrete, in insulation panels, in plasterboard and in variety of construction material.

It is composed of two elements, the housing (galvanize or inox) and the kit (made of die cast aluminum) which remains completely hidden. It can be produced in variety of lengths and heights. It can be painted in any color and its front finish can be covered in any material (stone, ceramic, etc.).

The opening of the light slit depends on the wattage of the LED, the type of ballast and the thickness of the material chosen to cover the front finish.

LUMINAIRE INFORMATION

Product Name: imole
Code: -
Environment Application: outdoor
Driver: external / internal

LUMINAIRE DETAILS

Fitting Type: wall recessed
Housing Color: upon request
Housing Material: galvanize or inox
Dimensions: upon request
Voltage: 230V
Wattage: upon request
IP Rating: 65 or more
Accessories: kit with mounted driver

APPLICATION DETAILS

wall recessed
RAL:1015 – light ivory
inox
W 300mm / H 230mm
230V
10W
65
kit with mounted driver

LIGHT SOURCE

Type: LED	LED
Wattage: upon request	10W
Luminous Flux: upon request	780 lm
Color Temperature: upon request	2700K

DRIVER DETAILS

Driver Voltage Input: 230V	230V
Driver Voltage Output: upon request	24V
Driver Wattage: upon request	10W
Dimming Protocol: upon request	on-off
